<b>VIDEO CONFERENCE BINGO</b>				
Surprise pet cameo	"Hey, can you be quiet? I'm on a call!"	Echo where you can hear yourself talking	Feedback screech	Personal message pops up on screen share
Obviously looking at their second monitor	Talking... but still on mute	Pinned your own face	Forgot the video link in the meeting invite	Ambient typing sounds
Host is late	Log in and you're the only one on video	 <b>Connection lost</b> (Free space)	Backlit	Forgot they were on video
Video froze (bonus if you get a screenshot)	Bluetooth headphones die mid-call	Forced break every 40 min. #zoomfreeplan	Awkward tab open on screen share	"No, sorry, you go..."
Hear someone swallow their drink *gulp*	"Can you mute your mic?"	Spot the spouse! (or partner or roommate)	Can't tell who's talking	Noise-cancelling headphones = Talking so loud!
